

LIFE PRIORITY™

YOUR LIFE, OUR PRIORITY

Life Priority™ Designer Food® Formula
From Durk Pearson & Sandy Shaw®

HAIR & NAILS PRIORITY™

MAINTENANCE NUTRITIONAL SUPPLEMENT

HAIR & NAILS PRIORITY™ was designed by Durk Pearson & Sandy Shaw® for their own personal use. **HAIR & NAILS PRIORITY™** works by providing you with the nutrients required for the growth of healthy hair and nails.

HAIR & NAILS PRIORITY™ capsules work from the inside to help create and maintain healthy scalp and follicles, as well as fingernails. Cysteine and biotin, important for hair and nails, are included along with a potent array of vitamins and minerals. This product was designed to provide increased levels of nutrients that hair requires for looking and growing its best.

The main nutrient, L-Cysteine Hydrochloride, an amino acid, is an important part of the structure of hair and nails. Cysteine is not found abundantly in many foods. The best dietary source is eggs, which contain about 200–500 mg of cysteine per egg. Since many people are not eating many eggs, possibly because of reducing fat and cholesterol in their diets, a supplemental source of cysteine can really help maintain or improve hair and nails. If you aren't getting much cysteine in your diet, your hair and nails may be shortchanged. This is because there are many other important things for which cysteine is required, for example the hormone insulin, to which cysteine is allocated before any is supplied to hair and nails. You can manage without long, strong hair and strong nails but you sure can't live without adequate supplies of insulin.

HAIR & NAILS PRIORITY™ cannot cure male pattern baldness, but it supports to strengthen thin, weak hair such as you are likely to have in balding areas. One study on balding men given supplements of cysteine and gelatin found that the initial below-normal levels of cysteine in their hair rose to normal levels. If your hair is slow growing, you may notice very pleasing results over a period of a few months.

You can use **HAIR & NAILS PRIORITY™** along with our other formulations, including our **ONE-PER-MEAL LIFEGUARD™**. **ONE-PER-MEAL LIFEGUARD™**, a daily health maintenance, health enhancement formulation, delivers generous amounts of all 13 essential vitamins plus seven minerals, with potent antioxidant nutrients like C, E, and selenium. We have packed all this into three capsules a day, one with each meal.
