LIFT™

NATURAL FRUIT-FLAVORED DRINK MIX FOR LONG-LASTING ENERGY

Leap into your day with tasty, natural fruit-flavored **LIFT™** for very fast and long-lasting mental energy. **LIFT™** fires up your brain naturally and jump starts your day. It contains essential nutrients, including L-phenylalanine*, that make and activate the release of noradrenaline, the brain's version of adrenaline, an important neurotransmitter.

- **L-phenylalanine** (an essential amino acid) and its cofactors help the brain produce noradrenaline and can help boost a positive mental attitude.
- **Noradrenaline** is a neurotransmitter and is not a drug. It is a natural substance made by certain nerve cells in your brain from nutrients in your diet. It is used to transmit messages from one nerve cell to another. Therefore, it is called a neurotransmitter. You do not have an unlimited supply of noradrenaline and after you've been working all day you get very exhausted, especially if you are not eating right. Not eating right or eating irregularly causes you to run out of the nutrients that your brain needs. Many people revert to coffee or an unhealthy energy drink in a can.
- Everyone who uses coffee and/or unhealthy energy drinks the first thing in the morning makes you bright-eyed, bushy-tailed and gives you a lot of energy. The second cup of coffee doesn't do as much as the first and the third does less than the second, and the fourth, even less. By the end of the day additional cups of coffee just make you feel spaced out and jittery.
- **LIFT™** also works to provide appetite satisfaction.
- **LIFT™** contains 80 mg of caffeine per serving. The two major effects of caffeine is that it causes the release of noradrenaline and causes you to be more sensitive to noradrenaline. The problem is that it does not help you to make more noradrenaline. It is like burning a candle at both ends.
- Therefore, **LIFT™** is a combination of nutrients that help the brain make more noradrenaline. It is a long-lasting version of coffee. You might say that it is the thinking man's coffee because it gives you a lot of get up and go without the "down." **LIFT™** is also available in capsule form as **LIFT CAPS.™**

Supplement Facts

Serving size: 1 level tbsp (14 g)
Servings per container: 30

Amount Per Serving	% Daily Value
Calories	45
Total carbohydrates 11 g	4%
Vitamin A (as beta-carotene) 1000 IU	20%
Vitamin C (as ascorbic acid) 100 mg	540%
(as niacinamide ascorbate) 225 mg	
Vitamin E (d,L-alpha-tocopheryl) 30 IU	100%
Thiamin (vitamin B1 as thiamine hydrochloride) 1.5 mg	100%
Riboflavin (vitamin B2) 3 mg	180%
Niacin (vitamin B3 as niacinamide ascorbate) 75 mg	375%
Vitamin B6 (as pyridoxine) 16 mg	800%
Folate (as folic acid) 100 mcg	25%
Vitamin B12 (as cyanocobalamin) 20 mcg	330%
Pantothenic acid (vitamin B5 as calcium pantothenate) 18 mg	180%
Zinc (as zinc gluconate) 3 mg	20%
Copper (as copper bisglycinate) 420 mcg	20%
Chromium (as chromium nicotinate glycinate) 25 mcg	20%
Fructose 10.7 g	†
Phenylalanine 600 mg	†
Taurine 200 mg	†
Glycine 150 mg	†
Caffeine 80 mg	†

† Daily Value not established.

Other Ingredients: Natural flavors, silicon dioxide, malic acid, citric acid, fumaric acid.

**PHENYLKETONURICS:
CONTAINS PHENYLALANINE**

RECOMMENDED USAGE:

For adults only. Place one tablespoon of mix in 4 to 8 ounces of cold water or fruit juice. Stir briskly and drink. Serve over ice for best flavor. Consume as desired 1 to 4 times per day. For best results drink immediately after awakening, on an empty stomach or about one hour before a meal or usual snack time.
