YOUR LIFE, OUR PRIORITY

OMEGA-3 PRIORITY™

CONCENTRATED ESSENTIAL FATTY ACIDS FROM PHARMACEUTICAL-GRADE FISH OIL

OMEGA-3 PRIORITY™ is a pharmaceutical grade fish oil concentrate providing a high potency of EPA (400mg) and DHA (200mg). Stringent quality control standards ensure this highly purified fish oil concentrate is free from toxic environmental contaminants and heavy metals like mercury. Studies have shown that essential omega-3 fatty acids can:

- Support brain health, memory, focus, and mood swings.*
- Support eye health by supplying the retina with DHA.*
- Help with heart health by reducing high blood pressure.*
- Help lower LDL cholesterol and helps increase HDL levels.*
- Help lower inflammation/regulate insulin levels to promote weight loss.*
- Help reduce or eliminate joint pain.*

§ Those who are on non-steroidal anti-inflammatory drugs (NSAIDS), warfarin, or other anti-clotting medications should consult a physician before supplementing their diet with omega-3 fatty acids.

LIFE PRIORITY™

YOUR LIFE, OUR PRIORITY

OMEGA-3 PRIORITY™

CONCENTRATED ESSENTIAL FATTY ACIDS
FROM PHARMACEUTICAL-GRADE FISH OIL

Supports Cardiovascular Function and Brain Health.

Q: What is **OMEGA-3 PRIORITY™**?

A: Life Priority's **OMEGA-3 PRIORITY** is a pharmaceutical grade fish oil concentrate providing a high potency of EPA 400/mg (eicosapentaenoic acid) and DHA 200/mg (docosahexaenoic acid) per capsule.

Q: Where do people get omega-3 fatty acids in their diet?

A: The best sources are from deep water fish. (Flax seed and/or flax oil (ALA) are not the optimum source of EPA and DHA.)

Q: Are omega-3 fatty acids essential for optimum health?

A: Yes, polyunsaturated fatty acids, specifically from omega-3 fatty acids, play an essential role in the function and health of cell membranes.

Q: What are the specific benefits from using omega-3 fatty acids?

A: Research shows that omega-3 fatty acids reduce inflammation and may help lower risk of chronic diseases such as heart disease, cancer, and arthritis. Omega-3 fatty acids are highly concentrated in the brain and appear to be important for cognitive (brain memory and performance) and behavioral function.*

Q: Are there any side effects?

A: Because of blood thinning activity, those who are on NSAIDs, warfarin, or other anti-clotting medications should consult a physician/pharmacist before using*.

Q: How much omega-3 fatty acid should I take each day?

A: Use 1 capsule of **OMEGA-3 PRIORITY** after each meal or as directed by your healthcare professional.
