

LIFE PRIORITY™

YOUR LIFE, OUR PRIORITY

TOTAL JOINT COMPLEX™

ULTIMATE JOINT SUPPORT

Total Joint Complex™ provides ultimate joint support with 6 nutrients, including glucosamine HCl, chondroitin sulfate and other essential co-factors. This combination of nutrients, endorsed by physicians, chiropractors, pharmacists and other health care professionals, has helped lower joint pain symptoms for thousands of users. **Total Joint Complex™** created specifically for health care professionals, contains glucosamine HCl, chondroitin sulfate, MSM, boswellia, bromelain and turmeric. These nutrients show encouraging evidence that they can provide support in the treatment and care of joint health.

- Glucosamine HCl is a modified sugar molecule manufactured by cells in our body. Glucosamine is an important component without which our bodies cannot live.
- Chondroitin sulfate is the most abundant glycosaminoglycan in cartilage and is responsible for the resiliency of cartilage.
- MSM (methylsulfonylmethane) is thought to be effective in the fight against osteoarthritis and other joint pain because of its high sulfur content, one of the building blocks of healthy joints.
- *Boswellia serrata* has been used in traditional medicine for treatment of inflammatory diseases since antiquity.
- Bromelain is a sulfur-containing proteolytic digestive enzyme that is extracted from the stem and the fruit of the pineapple plant. Bromelain may have an anti-inflammatory effect.
- Over the centuries, the spices, curcumin/turmeric, have been used as a pain relieving, anti-agent to relieve pain and inflammation in the skin and muscles.
