

LIFE PRIORITY™

YOUR LIFE, OUR PRIORITY

Life Priority™ Designer Food® Formula
From Durk Pearson & Sandy Shaw®

LIFESHIELD™

A HIGH POTENCY MULTI-VITAMIN/MULTI-MINERAL

LIFESHIELD™ is a scientifically advanced formulation designed by world-famous life-extension scientists Durk Pearson & Sandy Shaw for their own use. It is the centerpiece of their personal life-extension program. **LIFESHIELD™** is one of the most potent antioxidant multi-vitamin/multi-mineral formulas in the marketplace and is the centerpiece of research scientists Durk Pearson & Sandy Shaw's® life extension program. They say, "If we could only take one thing, **LIFESHIELD™** is what we would take."

This Life Priority flagship formulation contains 28 balanced and comprehensive antioxidant vitamins, minerals, and amino acids. The recommended dosage amounts are 3 capsules with each meal and 3 at bedtime (a total of 12 per day).

LIFESHIELD™ represents the extensive research of hundreds of scientists. Many of the 28 nutrients in this formulation are powerful antioxidants and free radical scavengers needed by your body to make protective compounds. It provides the most immune support of any product in Life Priority. Antioxidants, vitamins, minerals, and amino acids — 28 total nutrients — are conveniently contained in **LIFESHIELD™** capsules.*

ADVANCED FORMULATIONS: THE CORE OF EVERY SERIOUS HEALTH PROGRAM

Durk & Sandy have thought long and hard about the issues of advanced multi-nutrient formulations as they created this formula. This super-high-potency formulation should be at the core of any health program, providing all-day protection in ways unimaginable until now.

LIFESHIELD™ helps balance acidity and maintain the normal low pH of the stomach. This is especially important for people who have sensitive stomachs and still want to be able to take high potency multi-nutrients. This product is designed with intelligent ratios of nutrients such that adequate protection can be obtained by taking smaller amounts (6 capsules per day) than those recommended for optimal protection (12 capsules per day).

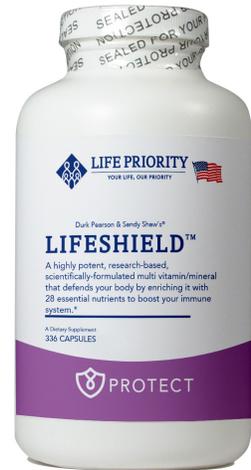

The high niacin content may cause temporary flushing, redness, a feeling of heat, and itching which usually lasts for about half an hour. The niacin flush is harmless and can be minimized by regularly taking your serving on a full stomach.

Quercetin (from <i>Sophora japonica</i> buds) 32 mg	†
Hesperidin from orange (<i>Citrus sinensis</i>) fruit 30 mg	†
Boron (as bororganic glycine) 750 mcg	†

† Daily Value not established.

Other Ingredients: Gelatin capsule, silicon dioxide.

RECOMMENDED USAGE:

As a dietary supplement for adults only, take 1 serving 4 times a day immediately after meals and at bedtime. Do not take 4 servings all at one time. Start with 1 capsule after each meal during the first week, increasing to 2 capsules after each meal the second week, and then 3 capsules after each meal the third week and thereafter. During the fourth week, and thereafter, also take 3 capsules.

Cautions: Persons with Wilson's disease should not use this product. Women with families with a high incidence of thyroid disease should not take this product unless directed to do so by their physician. Persons with the genetic metabolic disorder 6-GPD deficiency should not use this product unless directed to do so by their physician.
