YOUR LIFE, OUR PRIORITY

# CoQ PRIORITY™

## A HIGHLY ABSORBABLE FORM OF CoQ<sub>10</sub> FOUND IN EVERY CELL IN THE BODY

CoQ<sub>10</sub> is a coenzyme found in every cell in the body. CoQ<sub>10</sub> is the energy source for all our organs. Our bodies make it from the foods we eat. Unfortunately, as we age our bodies don't make enough. Getting CoQ<sub>10</sub> in a supplement form is the easiest way to ensure that the body gets what it needs.

- It is a fat-soluble substance, which resembles a vitamin.
- Discovered in 1957
- CoQ<sub>10</sub> is naturally produced by the body

Your heart beats about 100,000 times a day to get its job done and is fueled by CoQ<sub>10</sub>, which is why so many scientific studies have shown that it confers powerful support for your entire cardiovascular system.

**Life Priority™** offers Kaneka QH™ Ubiquinol, one of the most bio-available and active forms of CoQ<sub>10</sub>. There are two forms of CoQ<sub>10</sub>: ubiquinone and ubiquinol. Although both forms are effective, 95 percent of the CoQ<sub>10</sub> that naturally exists in your body is ubiquinol. So, if you take a supplement containing the ubiquinol form, your body can use it right away. On the other hand, if you take ubiquinone, your body will need to convert it to ubiquinol, and there's a possibility that the conversion may not happen efficiently

### CoQ PRIORITY™ helps:

- Restore youthful energy
- Support cardiovascular health
- Promote optimal cellular function
- Fight free radicals

Those using cholesterol medication should consult with their physician regarding the value of using CoQ<sub>10</sub>.
