

LIFE PRIORITY™

YOUR LIFE, OUR PRIORITY

TURMERIC COMPLEX PRIORITY™

WITH CURCUMIN AND BIOPERINE®

NEW Turmeric Complex Priority™: scientifically formulated to boost the bioavailability of curcumin by adding the other natural compounds found in turmeric. Turmeric is best known as a spice. It's one of the main components of curry powder. In India and other parts of Asia, turmeric is used to treat many health conditions. It is believed to have anti-inflammatory, antioxidant, and perhaps even anticancer properties.

- Helps inhibit inflammatory factors to promote both joint & organ health
- Fights oxidative stress and promotes cardiovascular health
- Also supports brain, immune system & liver health

In addition to curcumin, turmeric root contains many additional bio-active compounds including turmerin, turmerone, elemene, furanodiene, curdione, bisacurone, cyclocurcumin, calebin A, and germacrone. Health benefits of these active compounds continues, as research on any one of these may steal the spotlight from curcumin.

BioPerine® — known as potent black pepper extract is added, to help increase the effectiveness of the numerous natural nutrients found in turmeric. Enhancing the bioavailability of curcumin and related turmeric compounds shows great promise for healthy living.

2 vegetarian capsules provide:

1,000 mg Turmeric Root

110 mg Curcumin Extract 95%

5 mg BioPerine® (black pepper extract)

Supplement Facts

Serving size 2 capsules
Servings per container 60
